WAEL REFAI

ISTQB-CERTIFIED QA ENGINEER | TEST AUTOMATION

Kelibia, Nabeul, Tunisia | +216 53 645 173 | refaiwael@gmail.com | linkedin.com/in/refaiwael

PROFILE

ISTQB CTFL v4.0-certified software engineer focused on QA and test automation, with professional front-end development experience. Hands-on work in functional and regression testing, REST API validation with Postman, and Playwright end-to-end tests. Uses Generative AI to support test design, debugging, and documentation, with human review of outputs.

CORE SKILLS

Testing & Design: Functional, regression, integration, cross-browser and E2E testing; test cases and defect investigation

Test Automation: Playwright; automated web workflows; test scripts and execution results

API Testing: Postman; REST APIs; HTTP methods, response status, JSON payloads and error handling

Generative AI: AI-assisted test scenario design, script drafting, debugging and documentation; human validation

Programming & Tools: TypeScript, JavaScript, Java; Git, Chrome DevTools, VS Code

Web & Methodologies: React.js, Redux, HTML5, CSS3, Tailwind CSS; unit testing; Agile / Scrum

QA PROJECT

Web Application & REST API Testing | Mar 2026 – Present

QA Project

- Analyzed application requirements and user journeys to identify test conditions and define functional test scenarios.
- Executed functional, regression, integration and cross-browser checks; recorded test cases and results.
- Validated REST APIs in Postman, including request methods, status codes, JSON payloads and error handling.
- Built Playwright end-to-end tests for core web workflows; maintained test assets and code in Git.
- Used Generative AI for scenario ideas, test scripts, debugging and documentation; reviewed generated content.

PROFESSIONAL EXPERIENCE

Freelance Front-End Developer | Sep 2024 – Feb 2026

Freelance

- Developed responsive web interfaces and integrated REST APIs based on client requirements.
- Wrote unit tests, investigated functional/UI defects and improved cross-browser usability.

Front-End Web Developer | Aug 2023 – Aug 2024

Accelerant | Sousse

- Developed and maintained React.js and TypeScript applications with Redux and REST API integration.
- Collaborated with QA engineers on defect investigation, unit tests and browser compatibility fixes.

Web & Mobile Developer Intern | Feb 2020 – Jul 2020

Djagora Fablab | Sfax

- Built a WebRTC remote-maintenance mobile application with Firebase and API integration; tested key user workflows.

EDUCATION & CERTIFICATION

ISTQB® Certified Tester Foundation Level (CTFL v4.0)

Engineering Degree, Web & Multimedia Technologies | ISIMS Sfax | 2020–2023

Bachelor’s Degree, Web & Multimedia Technologies | ISIMS Sfax | 2017–2020
